## Tournament rules

## Schedule and eligibility

November 3 and November 10, 2026. Two separate nine-hole rounds each night, using the actual nine-hole course. All 15 locked tournament seeds stay fixed. Only first-night entrants can return for tournament play next week.

## Winning a matchup

Lowest nine-hole stroke-play total advances. Every matchup starts at zero. A bye advances a player without creating played holes. A player can still record a scheduled nine for weekly scoring while on a bye or after elimination.

## Ties

Tied players start sudden death at Hole 1. Continue Hole 2, Hole 3 and onward, looping the course if needed, until there is one winner. In a multi-player tie, only those still tied for lowest continue. The organizer records the outcome; projections never decide it. Sudden-death holes do not count in another matchup or weekly total.

## Main bracket

Opening winners play quarterfinals tonight. Semifinals and championship are next week. Current semifinal pairings: Patrick Brown vs Cody Harp, and Matt DeLozier vs Joe Wilson.

## Consolation routing

Opening losers enter C1 through C4. C1 and C2 winners join Q3 and Q4 losers in CS1. C3 and C4 winners join Q1 and Q2 losers in CS2. Their winners meet the two main semifinal losers in CF. Nobody returns from consolation to the main bracket. One consolation loss ends that prize path.

## Jim Toll exception

Jim is out tonight and keeps an organizer-approved place in CS2 next week. That group may have five players, with one advancing after nine holes. He must attend next week to use that place.

## Cards and starting holes

Keep head-to-head opponents on the same UDisc card. Publish a later card once its actual players are ready; unrelated cards do not need to finish first. Tonight both consolation groups start Hole 7, then 8, 9, 1, 2, 3, 4, 5, 6. Sam joins Bob/Tommy for weekly scoring only; Damian joins Adam/Noah for weekly scoring only. Cardmates do not change the matchup competitors.

## Buy-ins and held payouts

© S. L. Morris, 2026

$5 per paid player each week. Normally $1 is allocated to the ace fund, $1 to Hole 9 CTP and $3 to that night weekly pool. Weekly results use the two complete nine-hole totals. Hold both weeks weekly payouts and CTP until the tournament ends.

## Tournament prizes

Default split: main champion 50%, main runner-up 30%, consolation champion 20%. The organizer can change the split and actual fund amount. No money or buy-in payment is assumed from check-in alone.

## Verified ace contingency

If an eligible tournament ace is confirmed, the ace winner receives the regular-season ace fund under league rules. The full $5 actually collected per person across both weeks then funds tournament prizes, with weekly and CTP cash allocations suspended. A recorded 1 alone never triggers this cash change.

## Score corrections

Organizer-confirmed totals and results govern advancement. Unknown individual hole scores stay blank. A total that conflicts with entered hole detail is labeled for correction. UDisc scorecards and the organizer website remain separately identified sources.

## Season data

Seeding statistics stop October 13, 2026. October 20 and tournament scores are excluded. Bob account histories are combined using @bljduffer70. Morris attendance is organizer-confirmed at 100%.
